SOUTHERN PACIFIC MAKES PROMISES

Rate Case is Postponed and Big Things For the Peninsula Are Intimated.

The fight of the Peninsula for lower railroad fares is practically won. Monday when the case of the County Development Association against the Southern Pacific was called before the Railroad Commissioners in San Francisco the railroad company through its attorneys stated its belief that it could adjust the passenger rates in question to complete satisfaction of the peninsula towns represented, if it was granted a continuance of sixty days.

A conference was held in the office of Seth Mann, attorney for the San Mateo complainants. After due consideration all parties agreed to the continuance.

At this conference a letter was read from Attorney C. W. Durbrow of the Southern Pacific Company, in which he said the company was ready to adjust the matter of rates along the San Francisco peninsula and that a committee would meet representatives of the various towns at once. It was stated that the adjustment would probably be made on the basis of the rates now in force across the bay.

In addition to this reduction of fares it was intimated that other matters of great importance to the peninsula would be arranged for before the expiration of the time asked by the railroad company.

The suit loses none of its standing before the railroad commission by the continuance. If the adjustment offered by the company is not in keeping with the needs of the peninsula the case will be pressed with redoubled vigor. The railroad authorities gave ample evidence of their sincere purpose to do the fair thing in rates. The development association would prefer to have a peaceable settlement if it can be arranged during the next sixty days.

In consenting to the postponement Attorney Seth Mann presented the following resolution which was signed by representatives of both sides of the controversy:

Whereas, the Southern Pacific Company, defendants in the Peninsula Rate Cases, wherein this Association is a complainant, has, at the calling of these cases this morning before the California State Railroad Commission, moved for a continuance of the hearing of said cases for a period of sixty days, and

Whereas the Southern Pacific Company, by its attorney, Mr. C. W. Durbrow, in making said motion has stated to the Commission that if said continuance is granted it is the belief of the controlling officials of the Southern Pacific Company that a compromise of the passenger rate situation upon the Peninsula can be arrived at between the representatives of the Railroad Company and the representatives of the complainants in these cases, which compromise will be satisfactory to the complainants; and

Whereas, the statements of Mr Durbrow have been reported by the stenographer of the California State Railroad Commission, and reference to said statements so reported is hereby specially made; and

Whereas, Mr. C. W. Durbrow in a letter under date of August 26, 1912, addressed to a member of the Governing Board of the San Mateo County Development Association, stated:

"If I can secure the co-operation of your committee in obtaining a continuance of the Peninsula rate case set for hearing this morning, I shall ask the Commission to continue the case for sixty days, believing that if this continuance is granted, your committee and the officials of this company can within that time effect a compromise adjustment of all the issues which will be entirely satisfactory to your committee and the persons represented by them. If the committee feel that they can consistently consent to this continuance I suggest that the case be permitted to rest in statu quo, and that the committee and the officials of the S. P. Co. proceed at any time that may suit your convenience, but at the earliest possible date, to meet and negotiate for the purpose of effecting such compromise."

Now, therefore, in view of the representations of the defendant, the Southern Pacific Company by its attorney, Mr. C. W. Durbrow, before the Commission on said motion for continuance, and of the statements made in the foregoing letter, and for the purpose of arriving at a speedy and satisfactory settlement of all the issues involved in these cases, as offered, by the Southern Pacific Company, be it

Resolved, that the attorney for the San Mateo County Development Association, Mr. Seth Mann, be authorized and instructed to consent to the continuance of the trial of the case of the San Mateo County Development Association versus the Southern Pacific Company, pending before the Railroad Commission of the State of California, No. 264 for a period of sixty days or such time as the Commission may fix.

This county was well represented at the meeting. Besides the Board of Governors of the Development Association there were fifty or more residents who were ready to testify as to the injury that has resulted to the peninsula on account of the high rates of transportation.

In asking for a continuance the railroad company disclosed to Dr. Brewer and to Attorney Mann its plans for the future. While those that were taken into the company's confidence are not at liberty at this time to give out all the information in their possession it is definitely known that the railroad company is planning to give the peninsula an electric system with substantial reduction of rates.

It is said that the Southern Pacific will be prepared to reveal its plans for a new peninsula electric 4 line just as soon as President William Sproule of the railroad and Judge Robert S. Lovett, chairman of the executive committee of the Harriman lines, reach this city, the latter part of this week from Portland, where they and now in conference.

BELMONT WATER DISPUTE GOES TO R. R. COMMISION

Geo. O. Roussel of Belmont, who recently appeared before the Supervisors in an attempt to have the prices of water at that place regulated, and failed to get relief on account of the board's lack of jurisdiction, has presented his case to the Railroad Commission.

Recently W. T. Ried, A. S. Hilman, Dr. Gardner and Geo. Center of that town formed an organization for the purpose of acquiring a water supply from the Spring Valley Water Company, calling themselves the "Belmont Water Committee." They laid a main along Ralston avenue to their respective properties. Citizens of the village who applied to the committee for service were told that they might connect with the main at a price fixed by the promoters, which in all cases was exorbitant. In some instances it would cost as much as $200 and over to simply make the connection, and the farther away the applicant was from the junction with the Spring Valley main the steeper the price would be. Pipes so laid would become the property of the committe and the consumer would also have to pay such price as the committee pleases to charge for the water.

Roussel and his friends look on the proposition as a one-sided one in its every phase, and they think the Railroad Commission will take a similar view of the matter.

REDWOOD CITY WILL SEND MANY DEGEGATES SOUTH.

Redwood City will be well represented at the National Grand Army convention which opens at Los Angeles September 9th. The large attendance is due to the interest that is being taken in the campaign of Mrs. Geraldine E. Frisbie for the office of National Commander, for which position she has the endorsement of this State. Mrs. Frisbie was the organizer of the local corps and she is still an active member of the order.

Among the members of Gen. Geo. S. Evans corps who will attend are the following: Mrs. Geraldine E. Frisbie, Alice Mansfield, Martha George, Mary Winter, Annie Bovyer, Emma Winter, Mary Read, Marie Lipp, Ellen Mero, Hattie Kirste, Lou Harris, Mary Moore, Sarah Fox, Henrietta Jacobus.

The following who are not members of the corps will also attend: Mrs. E. S. Beebe, Lobitos; Mrs. G. W. Greenberg, San Francisco; Mrs. Hattie Rodgers, Mountain View, Miss Fox, Pearl George and Margie Winter.

The ladies will remain in the south the full time allowed by the tickets and will enjoy the stop-over privileges on the way home. The railroad company has granted a rate of $12 for the round trip.

Denies That He is Married.

The records in the County Clerk's office show that on July 24 a marriage license was issued to Henry L. Messing, aged 21, and Estelle Rogers, aged 18, both of San Jose, and it is also recorded that the couple were married in this city. Despite this evidence Messing states that he is not married and that someone has played a joke on him. He says he is barely acquainted with Miss Rogers.

BRANCH STATE LIBRARY PLAN PROVES POPULAR

Miss Eddy, a representative of the State Library at Sacramento who addressed the Board of Supervisors last week on the subject of establishing a branch library in this county, has since visited every part of the county with the idea of presenting the plan to the people and has every where met with encouragement. At the next meeting of the supervisors she will be able to present proof that the plan has almost unnaimous approval. The library offer has been accepted by over twenty counties in California, and provides for library service for all the counties not now receiving it. It does not include towns that have libraries unless they wish. They, however, may arrange to receive any additional service from the county which they cannot give from their own shelves.

The supervisors are empowered by law to establish the library and maintain it from the county funds. It has its headquarters at the county seat, in charge of a trained, experienced librarian. In order that the books may be accessible to everyone, branches are established in every community in the county, and supplied with books and magazines. When the books are no longer used in the branch, they are returned to headquarters, and fresh ones take their place. Then in addition, if anyone wants a book or a group of books not to be found on the local shelves, they are sent for to the county headquarters. If they are not there the State Library will send them free. In this way anyone, no matter where he lives, has access to what will interest him the most and help him most. Books will be furnished to business men, farmers, mechanics or for any of the professions. The entire resources of the State Library, numbering some 200,000 volumes are placed at the disposal of the public.

At the next meeting of the supervisors numerous petitions will be presented favoring the plan, as well as a strong endorsement by the Redwood City Woman's Club.

The counties now carrying on the plan are most satisfied, feeling that it is offering an economical and at the same time comprehensive solution for book service.

Miss Eddy explains that under the law incorporated cities having public libraries, such as Redwood City, would not be required to pay any of the tax necessary to support the branch libraries, unless by express desire to draw upon them.

About $5000 would be required, she said to establish the library and its branches. Every community which has a school will be entitled to a branch which may be in the school or any other central building provided by the people. Towns like Belmont, Pescadero, Halfmoon Bay, etc., should have special reading rooms also provided by the citizens.

FIERCE FIRE ON THE HILLS; FIRE-FIGHTERS RESPOND

Sunday a fire broke out on the western hills, that for a time threatened the Lent and Oxnard homes. The Oxnard automobile was sent to town and a crew of fire-fighters was hastily gathered who hurried to the scene of the fire and after a hard battle, in which some clothes were ruined, succeeded in subduing the blaze and saving the two homes. The fire burned fiercely over a large area of ground. It's origin is not known. Some joker started the report that the volunteers were thanked for the work they had done; while another wild yarn was circulated to the effect that they were liberally rewarded for their efforts. The fire-fighters however, refuse to confirm these stories, but they deny that they were kicked off the premises after the fire was extinguished.

Captain Henry Christ and Minnie Thomas were married at Melrose last Saturday. The groom who is a nephew of John Christ is well known in Redwood, having often visited this city with his vessel, the Katie S.

Miss Dora Horn, a former resident of this city and a cousin of Mrs. J. W. Wilson, was married at Oakland on the 12th instant to Charles Webster, a young businessman of that city. Her sister Ruth is also to wed shortly. Both young ladies will be recalled as popular school girls here a few years ago.

THE DEVELOPMENT ASSOCIATION

A GOOD EXAMPLE.

In these days, when bitter experience has taught the people to look upon public service as merely vast aggregations of capital designed to extract from the public "all the traffic will bear," the business policy being pursued by the Pacific Gas and Electric Company in dealing with its patrons is, to say the least, refreshing. Practically without a competitor in this section, the company has voluntarily made material reductions to its patrons in the cost of both the commodiies with which it serves the public.

Nor is this all for which this corporation is entlied to credit in its dealings wth the public. Not only has it voluntarily reduced the price of the commodities which it has for sale, but it has evidenced a readiness to materially assist its patrons in their efforts at economy. At what must be a material cost to the corporation, men who are experts at the business are constantly kept in the field ready to instruct consumers in the most economical methods for the use of these commodities, while the advantage of every appliance circulated to reduce the amount of consumption is freely placed within the reach of the patrons, and this without special charge.

Of course, some will say there is a selfish motive prompting this evidently liberal policy. Well, possibly there may be; few men of busniess are inclined to invest their capital from purely elemosynary motives. What interests the public is the fact that the management of this great corporation is endowed with that sort of business acumen which prompts fair and liberal dealing with the pubbic, an example which might well be followed by other public service corporations.

SHOULD HAYES BE RETURNED TO CONGRESS?

This is a question that is a matter of great concern to every voter in this Congressional district; to the business man, to the laborer, home-builder, property owner, shipper, and manufacturer.

Mr. E. A. Hayes has been in Congress for eight years and during that time he has become a leader and a progressive one at that. Could anything be more progressive than the stand he took in the fight to oust Cannon and the Old Guard? or his stand on the restriction of immigration? This question of Chinese and Japanese immigration is one of great importonce to the people of this state, and Mr. Hayes is a firm beliver in "California for White men" thus preventing the displacing of white labor by yellow labor.

He was also an ardent worker for the Exposition and without his influence it probably could never have been won. He was in the thickest of the fight at all times and because of his long service, acquaintance, and standing with other Congressmen was able to secure their support. There was a opposition to California, and the gaining of the Fair for San Francisco was a gain for this district, for as San Francisco gains we shall gain in population, welth, commerce; and greatest of all-in an opportunity to introduce ourselves to the world.

In helping to secure a harbor appropriation for Monterey, not then his district, Mr. Hayes did something that will long be remembered by the people of that city. Locally he secured an appropriation for the dredging of Redwood creek which enables deep sea ships to reach us. More opportunity again. He has given us the chance and no one can do more. He has shown us that he has the best interest of his constituents at heart, and the spirit of mere gratefulness, if nothing else, should couse him to have the hearty support of the voters of this district.

But there is a something else that entitles him to reelection. As opponent Mr. Hayes has Judge Robert M. Clark of Ventura. Mr. Clark is in all probability a good man but coming from Ventura his interest would naturally be in the southern sart of the state, principally about Los Angeles, and the northern end of the district would likely be forgotten until next election day. On the otherhand Mr. Hayes's residence assures us that all parts would be equally taken care of as he is not influenced by the proximity ot either of the large cities.

Important as this fact is, it is not the most important. In order to secure benefits one must be teoroughly acquainted with the "ropes" and Mr. Hayes is such a man. As Senator West has said "The reason New England has dominated the politics and legislation of this country is because her people generally return their representatives, who are familiar with the public business." To quote H. J. Groves of the Kansas City Times. "The people should have an opportunity to pass on the congressional record often, at least every two years, but if the record is good and a growing one it should be indorsed." Mr. Hayes has such a record.

On April 13, 1910 Hon. T. W. Sims of Tennessee made this statement in the House of Representatives: "It matters not what a member's educational qualification may be, it matters not how great an intellect he may possess, nothing can fully equip him for the most effective service except continued service." It cannot be expected that a new member can secure action on important measures or get appropations of any large amount of money. It requires an experienced man. In the next few years matters of grave importance to this district will come up, and will need prompt action because of the Exposition and the situations that will arise from it. These situations must be met with despatch and by one who is in a position to secure such action.

Shall we then entrust our welfare to one who will require at least one term to gain the necessary knowledge and influence to secure such action, knowing it is doubtful if he could secure it at all, or shall we entrust our affairs to one who has proved that he is honest and efficient; and capable of securing legislation and appropirations for the good of his constituents and of the state at arge?

LOCAL POINTERS IN MATTERS POLITICAL

Aspirants Who Will Contend in the Primary Election on Tuesday Next.

The primary election takes place next Tuesday and while there are not many candidates to be voted for yet there is considerable activity among the politicans in the First and Third townships where the contest for the office of supervisor is quite sharp. Mr. Flint, the bull moose candidate for state senator, has no opposition, there being no regular republican candidate against him. J. H. Leonard of Santa Cruz and Albert Mansfield are the rival candidates on the democratic ticket for state senator. Mr. Leonard is a practicing attorney at Santa C ruz and has a large following in San Mateo county as well as in his own territory. He is looked upon as a sure winner. Mr. Mansfield is the attorney for the City of Redwood. For the office of assemblyman Henry Ward Brown and Porter Lamb are the contestants. Lamb, Burlingame styles himself as a progressive republican, whatever that may mean, and expects to get the vote of that element in the county. Mr. Brown is the present assemblyman and has held the position for four terms. The people of the county believe in him and have learned to admire him for his honesty and independence and will give him a rousing vote on next Tuesday.

In the First township there is quite a scramble for the Republican nomination for supervisor, the three aspirants are bending every energy to secure it. J. C. Eikerenkotter, the former supervisor, would like to serve another term while W. R. Markt, a saloon keeper at Visitacion, is willing to serve the people in the capacity of supervisor. H. C. Rogers of Colma has made a splendid canvass for the office and his prospects for the nomination are very good, though he looks upon his opponents as formidable candidates. Should Mr. Rodgers secure the nomination his chances for election are good. James T. Casey has no opposition for the democratic nomination. His party believes he has made a good supervisor and will give him its fullest support at the November election.

In the third township the contest for supervisor in Democratic ranks is very keen and some bitterness has been engendered. P. H. McEvoy seeks a re-election and points to his record of sixteen years in the office as an argument for continuing him in the position. His oppenent, W. J. Murray of Menlo Park, is an excellent gentleman, who has resided in the disrict all his life, and is thoroughly acquainted with he needs and wants of the *Third* township. He is a first class man for the place. There is a good natured and friendly contest between John MacBain and W. H. Hooper for the Republican nomination. Mr. MacBain formerly held the office for one term and gave the people of the township an honest and economical administration,earning the plaudits and admiration of the taxpayers. He has consented to become a candidate at the urgent request of his many friends. Mr. Hooper maintains a beautiful home at Woodside. He is a man of means and a splendid campaigner. Mr. Hooper has all the qualifications to make an ideal supervisor.

In the Fourth township Joseph M. Francis has it all his own way, having no opponent for the democratic nomination and no prospective opposition for the November election. Mr. Francis has given the people of the coast side a splendid administration and they are evidently satisfied wth him.

Delegates to the Republican convention to be held at Redwood City on September 14 will be voted for at next Tuesday's election. Voters will write the name of their favorites on the ballot. The Democratic delegates will be written in the same manner.

Democratic Assembly Candidate.

M. J. Conway, chairman of the democratic county committee desires all Democrats to write the name of E. J. Crane of Menlo Park on their ballots for the office of assemblyman at the election to be held next Tuesday. As all assemblymen and senators elected at the primaries will meet in convention after the election to select presidential electors to be voted for in November, it is the desire of Mr. Conway to have San Mateo county represented in the convention. Mr. Crane is an excellent gentleman who enjoy thes confidence of his party.

Carnival Shows Here.

Three large baggage cars of paraphanalia for the Foley & Burke Amusement Co. arrived today from Turlock where they exhibited last week at the Melon Festival. The Turlock papers speak very highly of the merits of this company. They will erect their tents on the large lot in the rear of the Pioneer Livery Stables. They open Monday night and close Thursday night instead of Saturday in order to get to Monterey Saturday for the Admission Day celebration. They are spending considerable money for electricity to illuminate the lot. The shows are all clean.

Hunting for Chipmunks.

Prof. H. C. Hall would like to receive information of a colony of chipmunks, said to be native only to the forests of Marin county. He is to be joined in a few days by Mr. Chase Littlejohn of Redwood City, the noted biologist, who has just returned with the sixteenth species of the chipmunk family from the Lake Tahoe region. He claims that the most beautiful variety is yet to be found in Marin county.—San Rafael Independent.

La Honda Property Changes Owners.

Mr. and Mrs. Wetherbee have sold their place at La Honda consisting of three acres to Charles Cavalli. The property is the former site of the Redwood Villa that was destroyed by fire some time ago. In years gone by the villa was the scene of many gay parties and many San Franciscans found rest and recreation there. Mr. Cavalli, when his lease to the Sears place expires, will move his store there. Much land in and about La Honda has been purchased by George Pope, the millionaire lumber man. The sale of these lands was made through the University Realty Co.

Menlo Park News Notes.

Walter H. Linforth is sinking an artesian well at his place to secure sufficient water supply for the needs of his beautiful gardens and attractive lawns.

John Mac Bain is erecting a cottage for William Cluff to be used by the servants. He is also building a lath house. Mr. Cluff has one of the prettiest homes on the peninsula and is constantly improving it.

James Francis Hogan, a local politician and bull mooser, is an aspirant for a position under the harbor commissioners of San Francisco. He may not secure the place until the Big Bull Moose, Hiram W. Johnson gets through tiring the people of the east with his harangue about humanity and human rights, etc.

Former Senator Charles N. Felton of Menlo Park has the unusual disinction of being a great grandfather, as the result of a visit of the stork to Hillsborough Tuesday. Mrs. Christian de Guigne Jr., who was formerly Miss Marie Louise Elkins of Philadelphia, is the proud possessor of a baby son. Mrs. De Guigne is a granddaughter of Mr. Felton.

Jack Hannigan, an athlete of considerable note, has esablished an inviable record as a pedestrian in walking from San Francisco to Menlo Park in ten hours, the best time ever accomplished by any walker who ever attempted the feat. This achievement was performed las Tuesday by Mr. Hannigan who has since received many wireless congratulations from his friends in San Francisco.

D. S. Dorn, the atorney, has prepared plans for a fifteen thousand dollar residence to be erected on the site of his present home near the Sacred Heart Convent. The building is to be a model abiding place of convenience, comfort and a home that a king might covet. Mr. Dorn is to live here during the winter months and his daughters are to attend Stanford University and necessarily will entertain considerable. Contractors are now making estimates on the work.

Burglars Steal Dynamite.

Twenty-four sticks of dynamite, sufficient to blow up a whole block of buildings, were carried off last Tuesday night by burglars who entered a storehouse owned by Max H. Bille, a nurseryman on the Middlefield road. Although the robbers gained access to 600 pounds of the dangerous material, all but two dozen of the sticks remained untouched when Bille made the startling discovery Wednesday morning.

Constable Walsh was at once notified and he is sparing no effort in searching for a clue that will lead to the arrest of the dangerous miscreants. Mr. Walsh is a clever sleuth and if any one can catch the guilty party he certainly will. During his short term of office he has made some clever captures of criminals.

POLITICIAN TELLS AMUSING STORIES

Senatorial Candidate Describes Work of Opponents in Entertaining Yarn.

That John H. Leonard, candidate for State Senator on the Democratic ticket, is receiving the opposition of one or two self duped political leaders, has been made evident to his many friends, The latter does not care very much for,this,realizing,that since the coming primary law these almost bosses who are talking so big of "throwing their support against Leonard" are having all they can do to support themselves with three meals a day. The matter, however, was mentioned to Leonard. The big fellow laughed.

"At the beginning," he said, "it was intimated to me that to secure the nomination it was necessary for me to obtain the favor of certain individuals who, for some reason or other, regarded themselves as being the dictators or leaders of the Democratic party. I failed to view it in that light. My opinion was, and now is, that if an American citizen desires public office, he can get out and run for it without truckling to anybody or anything. In fact it reminds me of the old cow.

In the early days around Santa Rosa, it was found necessary to collect funds for some public improvement, and the citizens decided that a raffle was about the best way of getting the funds. Accordingly old man Mulligan gave a cow to the cause and it was raffled off in the usual fashion. Harrigan won the cow. "Where is the cow," said Harrigan when the raffle was over. "There" said old man Mulligan pointing to a rakish, lean, nasty looking creature in the herd. Harrigan started to get the cow but the cow was not to be got. It struck out over the range like an antelope. Harrigan chased it that day, the next and a few days after, but ultimately gave it up as a bad job, he could not catch that cow. Some time later he received a note from Mulligan informing him that there was a bill against him for pasturage for that cow. Harrigan expostulated but Mulligan was firm. To get out of the difficulty Harrigan put up the cow again for raffle—with the same result. The winner chased the cow all over the State of California, and then he, in disgust, decided to raffle it for the same cause. They kept that cow going until its death, raffling it and re-raffling it.

Now, to my mind, the Democratic nomination is very much like that cow. These pickayunes may hand it around to whomever they like, but it will belong to the man who captures it."

Motorcop Issues Warning.

Motorcycle Patrolman M. Brown is determined that there will be no more accidents on the road leading to Halfmoon Bay from San Mateo. He has posted danger signs all along the thoroughfare and he is to thoroughly parol it during the Saturdays, Sundays and Mondays of each week. No one will be permitted to run their machine more than ten miles an hour and only four miles an hour at dangerous curves. Several accidents have occurred lately on the road through recklessness of auto drivers.

Grass Fire at Portola.

A grass fire started at the Peter Faber place at Portola early yesterday morning and continued through the day, spreading to the lands of Mrs Stanton and the Macdonough stock farm, burning everything in its path for two miles and covering over a territory of 100 acres. A large number of Stanford students volunteered to fight the fire and by their efforts the flames were checked and the fire was under control late last evening. Considerable damage was done. It is not known how the blaze started.

AUTOLOADING SHOTGUN

For singles—trap or field—just toss in a shell, press the button and—"PULL." The side bolt makes it easy. You don't have to tug at the barrel or watch an on-and-off device. The action stays open after each single shot is fired.—It always stays open when the magazine is empty. Five shots—three to get the cripples—each under absolute control of the trigger finger. The recoil reloads for you—kicks another shell in; takes the strain off the gun—the discomfort out of the kick—all without diminishing the drive behind the shot.

Simple take-down—a few turns of the readily handled magazine screw-cap makes cleaning, carrying and interchange of barrels quick and easy.

Send for a motion picture booklet telling how the kick is used—how a friction device found only on the *Remington-UMC* Autoloading Shotgun takes the punishment out of heavy leads.

is our aim in serving meat—to retain the fine flavor Nature bestows, not to let it go to waste, as some meatshops do.
